

Hannelore Roemich

Dr. Hannelore Roemich (*PhD in Chemistry from the University in Heidelberg, Germany*) is Professor of Conservation Science at the Conservation Center, Institute of Fine Arts, New York University (NYU) since 2007. Dr. Roemich offers instruction in the core program at NYU, teaching *Preventive Conservation* and *Materials of Art and Archaeology* as well as advanced conservation science courses. Dr. Roemich served for eighteen years as a conservation scientist at the Fraunhofer-Institut für Silicatforschung (ISC) in Würzburg, Germany, where she conducted research on the deterioration and conservation of stained glass and outdoor bronze sculpture, glass sensors for environmental monitoring, and lectured widely on her work. Dr. Roemich is currently Program Director for the TBM initiative at NYU.
